Abdelrhman Saeid

Frontend Engineer | React & Next.js Specialist

01016113879 | abdelrhmansaid996@gmail.com | Alexandria, Egypt | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Frontend Engineer with 4+ years of experience building production-ready SaaS, ERP, CRM, and IoT Dashboard applications using React.js and Next.js. Proven track record of collaborating with cross-functional teams on high-traffic platforms, optimizing web performance, and translating Figma designs into pixel-perfect, accessible, and responsive interfaces.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+)
State & Data: Redux, React Query, Zustand, Context API, Axios
Styling & UI: Tailwind CSS, Shadcn UI, SASS/SCSS, Bootstrap, Material UI, GSAP, Framer Motion
Backend: Node.js, Express.js, MongoDB, Mongoose, RESTful APIs, Supabase
Auth & Services: Clerk Auth, Cloudinary, EmailJS
Tools: Git, GitHub, Vite, Figma, Adobe XD

PROFESSIONAL EXPERIENCE

Freelance Software Developer | Self-Employed — Jan 2026 – Present | Remote

- Developed full-stack web solutions including E-commerce, SaaS, and CRM systems for international clients.
- Built and maintained IoT Dashboards interfacing with hardware components for real-time data visualization.
- Delivered end-to-end projects using Next.js, Node.js, and MongoDB with a strong focus on performance and scalability.

Frontend Developer | weLevelUp LLC — Jul 2025 – Dec 2025 | Remote

- Collaborated within a cross-functional team to build scalable frontend architectures for production-level applications.
- Achieved 100% responsive design across all platforms and optimized Core Web Vitals and page performance.
- Conducted code reviews and contributed to Git-based collaboration workflows in an Agile environment.

KEY PROJECTS

FinalStep — SaaS Task & Team Management - Live — Next.js, MongoDB, Redux, Clerk, EmailJS

- Engineered a full-stack project management system with Role-Based Access Control (RBAC) supporting multiple user roles.
- Designed complex project hierarchy and team permissions logic with optimized state management using Redux.

Vecho — Security Devices Platform (Production) - Live — HTML, CSS, JavaScript, Figma, OctoberCMS

- Collaborated within a large-scale development team to deliver a high-end production security devices website.
- Translated high-fidelity Figma designs into pixel-perfect, fully accessible React components.

Fitlife — Gym & Fitness Platform (Production) - Live — React.js, Next.js, Tailwind CSS, Framer Motion, EmailJS

- Engineered a modern, responsive UI for a leading gym platform with a focus on UX and fast load times.

IoT Dashboard — Full-Stack Academic Project — Next.js, Node.js, MongoDB

- Built an end-to-end system communicating with hardware sensors using Next.js, Node.js, and MongoDB.
- Designed real-time monitoring charts and data visualization tools for live IoT sensor feeds.

Quick Cart — E-commerce Platform — Next.js, TypeScript, Tailwind CSS, Clerk, Context API

- Built a full-featured online shopping platform supporting authentication and role-based permission control.

EDUCATION

Bachelor of Computers and Information (B.Sc.) | In Progress — 2024 – Present

- Specializing in Software Engineering and Web Technologies.
- Consistent excellence in graduation projects with a Full-Stack development focus.

Diploma in Computers and Information | Completed
